

Medical Benevolence Foundation

Alternative Gifts are opportunities for double blessing. Alternative Gifts support the healing ministries of our church partners around the world, while at the same time providing a meaningful way to honor loved ones or celebrate a special occasion like a birthday, anniversary, graduation, wedding, Mother's Day, Father's Day or Christmas.

Alternative Gifts

Suggested gift amounts are provided as a guide; actual costs vary by country and even within a country. Gifts are welcome in any amount, and in many cases are combined with similar gifts to provide support for an extended time or a larger project. If we receive more contributions for a given project than can wisely be applied to that project, we will use those funds where most needed within the category or for a similar pressing need. Every gift and each program is an important component in the health ministry in which we participate with our worldwide partners. Together we make a difference!
